

## PeriGen at a glance...

- **HISTORY:** Formerly E&C Medical Intelligence, PeriGen, Inc. was founded in 1995 by two experts in high-risk medicine who pioneered the first advanced clinical decision support system for obstetrics. In 2009, PeriGen acquired Montreal-based LMS Medical Systems, the world leader in labor monitoring technology.
- **SIZE:** 108 employees in the United States, Israel, and Canada.
- **CLIENTS:** 136 hospitals, insurers, and physician groups across North America, supporting 300,000 births annually (a new birth every 2 minutes).
- **USERS:** 15,559 clinician users nationwide
- **ADVISORY BOARDS:** Physician Council, Nursing Council.
- **PROPRIETARY TECHNOLOGY:** PeriBirth™ Advanced Clinical Decision Support System, including PeriCALM™ Fetal Monitoring, Surveillance, Archiving and Decision Support technologies.
- **REGULATORY APPROVALS & PATENTS:** PeriGen holds 14 patents and 23 patents pending. PeriGen's fetal surveillance system is FDA cleared, licensed by Health Canada, and bears the CE mark for Europe.
- **AWARDS & RATINGS:** In 2008, PeriGen was rated the highest-scoring solution provider by the KLAS Labor and Delivery Report; five of PeriGen's clients were rated *HealthGrades'* Five-Star Maternity Care Hospitals, and three were recipients of *HealthGrades'* Specialty Excellence Award in Maternity Care.
